

SANIYA FAROOQUI

Full Stack Developer | B.Sc. IT Student | MERN Stack | Cybersecurity Foundation
+917666886033 | saniya122400@gmail.com | Virar, Mumbai, Maharashtra, India | [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Motivated second-year B.Sc. IT student at Patkar-Varde College, Mumbai University (FY GPA: 8.73) with hands-on experience designing, building, and deploying full-stack applications using the MERN stack. Sole developer of KisanX, a cross-platform farmer-to-customer marketplace that evolved from a PHP/MySQL web application to a production-deployed React Native mobile app with JWT authentication, OTP verification, and a Render-hosted RESTful backend. Completed a Python for Cyber Security course (Erasmus+ Programme) and Deloitte Cybersecurity Job Simulation, demonstrating foundational interest in secure software development. Presented KisanX as a research paper at the Avishkar Inter-Collegiate Research Convention (Mumbai University). Seeking an IT internship to apply real-world full-stack and cybersecurity skills within a professional engineering team.

CORE COMPETENCIES

Languages JavaScript (ES6+), TypeScript, HTML5, CSS3, PHP	Frameworks & Platforms React.js, React Native (Expo), Node.js, Express.js, MERN Stack
Database & Auth MongoDB, MySQL, REST APIs, JWT Authentication, OTP Verification, CRUD, Context API	Tools & Productivity GitHub, VS Code, Postman, Render, XAMPP, MS Office Suite, Technical Documentation
Full Stack Development End-to-end web & mobile application development; cloud deployment (Render); responsive UI design	Cybersecurity (Foundational) Python for Cyber Security, Phishing Awareness, Secure Authentication, JWT, Password Hashing, Session Management
Soft Skills Communication, Teamwork, Time Management, Problem Solving, Research Presentation	Languages Spoken English, Hindi, Marathi

EDUCATION

BSc Information Technology | Patkar-Varde College, Mumbai University **Jun 2023 – Present**

- CGPA (FY): 8.73 | Currently in Semester IV | Consistent academic performance
- Active research output: presented KisanX at Avishkar Inter-Collegiate Research Convention

HSC (12th Grade) — Commerce | Nirmal Junior College / Maharashtra State Board **Jun 2024**

- Percentage: 86.17%

SSC (10th Grade) | Maharashtra State Board **Mar 2022**

- Percentage: 85.60%

FULL STACK DEVELOPMENT SKILLS

Frontend & UI Development

- Proficient in HTML5, CSS3, JavaScript (ES6+), and TypeScript for building responsive, accessible web interfaces
- Experience with React.js (component architecture, hooks, Context API) and React Native with Expo for cross-platform mobile development
- Attention to UI/UX consistency across web and mobile surfaces; implemented animations and polished design systems

Backend & API Development

- Built RESTful APIs using Node.js and Express.js supporting CRUD operations, authentication, and business logic
- PHP backend development with MySQL for relational data models and session-based authentication
- Implemented JWT authentication, OTP verification, and password hashing for secure user management

Database & Cloud Deployment

- MongoDB (NoSQL) for flexible document storage; MySQL for structured relational data
- Deployed production backend on Render cloud platform; experienced with XAMPP for local development
- Version control using Git/GitHub; API testing and documentation with Postman

RESEARCH EXPERIENCE

KisanX – Direct to Consumer Platform for Farmers | University of Mumbai 2024

Avishkar Inter-Collegiate Research Convention • Agriculture & Animal Husbandry (UG Level)

- Researched and proposed a technology-driven solution to supply chain inefficiencies in Indian agriculture
- Selected for inter-collegiate competition out of multiple institutional entries; demonstrated working prototype to academic evaluators
- Presented findings across KisanX's two development phases (web + mobile) with technical depth and clarity

PROFESSIONAL EXPERIENCE

Full Stack Developer (Virtual) | Deloitte Technology Job Simulation via Forage March 2026

- Completed real-world software development tasks simulating industry-level engineering workflows
- Practised coding, debugging, and systematic problem-solving techniques aligned with Deloitte engineering standards

Cybersecurity Analyst (Virtual) | Deloitte Cybersecurity Job Simulation via Forage June 2025

- Conducted basic threat analysis and security assessments on simulated environments
- Studied cybersecurity concepts including risk identification, mitigation strategies, and incident response

PROJECTS

KisanX — Farmer-to-Customer Marketplace Platform | *PHP · MySQL · MERN Stack · React Native · TypeScript · JWT*

Phase 1: Web Application | **PHP · MySQL · HTML · CSS · JavaScript**

- Built a full-stack e-commerce platform connecting farmers directly with customers, featuring product listings, cart, wishlist, checkout, and order tracking
- Designed responsive UI with animations; implemented secure authentication using password hashing and session management
- Developed complete backend logic for cart operations, order processing, and inventory management

Phase 2: Mobile Application | **MERN Stack · React Native · TypeScript · JWT**

- Upgraded platform to a cross-platform mobile application; deployed backend on Render cloud for scalable, production-ready hosting
- Implemented secure JWT authentication and OTP verification; developed RESTful APIs for users, products, cart, orders, wishlist, and dashboard
- Achieved improved scalability, performance, and modernized UI compared to the web version

The Capital Home Website | *HTML · CSS · JavaScript*

- Developed a fully responsive real-estate website showcasing property listings with clean, modern UI

Vastu Properties Website | *React.js · JavaScript*

- Built a property listing website using React.js with dynamic content rendering and a mobile-first design approach

Portfolio Application | *React Native · Node.js*

- Designed and developed a personal portfolio mobile application demonstrating full-stack React Native skills

EXTRACURRICULAR ACTIVITIES

Member — Tech Titans Club | Patkar-Varde College Technical Club

- Engaged in technical events, seminars, and hackathons organized by the club
- Contributed to group learning activities and supported event organization

ACHIEVEMENTS & AWARDS

-
- Avishkar 2024 – Selected for Avishkar Inter-Collegiate Research Convention, Mumbai University (KisanX project)
 - Deployed 3+ live production web and mobile applications with real-world users
 - Completed Deloitte Technology + Cybersecurity dual job simulations via Forage (March 2026 & June 2025)
 - FY GPA: 8.73 — Consistent academic performance at Patkar-Varde College, Mumbai University
 - HSC: 86.17% | SSC: 85.60% — Strong foundational academic record
 - Best Personality Award – Awarded Best Personality in 12th Grade
 - 2nd Prize – Kabaddi Competition, showcasing teamwork and sportsmanship
 - 1st Prize – Chaat Making Competition, reflecting creativity and active event participation
 - 3rd Prize – Mehendi Competition, demonstrating artistic skills and cultural engagement

CERTIFICATIONS

Python for Cyber Security | Chikitsak Samuha's Patkar-Varde College (CS4ALL / Erasmus+ Programme) **Oct – Dec 2025**

- Erasmus+ co-funded course on applying Python for cybersecurity scripting, security tooling, and threat analysis automation

Advanced C++ Training | IIT Bombay — Spoken Tutorial **March 2025**

- Score: 100% | Covered advanced C++ programming concepts, memory management, and OOP principles

R Programming Training | IIT Bombay — EduPyramids **February 2026**

- Score: 92.5% | Statistical computing and data analysis using R

PHP & MySQL Training | IIT Bombay — EduPyramids **September 2025**

- Score: 72% | Server-side scripting and relational database management

HTML Training | IIT Bombay — Spoken Tutorial **October 2024**

- Score: 65% | Foundational web markup and semantic HTML

WORKSHOPS & WEBINARS

Research in IT – AI Unleashed: Exploring Generative Technology | RUSA-Sponsored International Webinar **August 2024**

- Attended international webinar exploring generative AI tools, research methodologies, and emerging applications in IT

IMPACT & INNOVATION

-
- Designed and shipped KisanX across two technology generations — web (PHP/MySQL) to mobile (MERN + React Native)
 - Deployed 3+ live production applications serving real users, including a cloud-hosted RESTful backend on Render
 - Authored research on agricultural supply chain inefficiencies and presented at Avishkar, Mumbai University
 - Completed Python for Cyber Security and Deloitte Cybersecurity simulations — building a foundation in secure development
 - Maintained strong academic record (GPA 8.73) alongside active project development and research commitments

INTERESTS

Full Stack Web & Mobile Development • Cybersecurity & Secure Software Development • REST API Design & Cloud Deployment • UI/UX Design • Agricultural Technology & Social Impact • Open Source & GitHub • AI Integration in Applications • Technical Research & Documentation
