Backend	Node.js, Express.js, PHP
Database	MongoDB, MySQL
Full Stack	MERN Stack (MongoDB · Express.js · React · Node.js)
Auth & APIs	REST APIs, JWT Authentication, OTP Verification, Context API, CRUD
Tools	GitHub, VS Code, Postman, Render, XAMPP

PROJECTS

KisanX — Farmer-to-Customer Marketplace Platform

Team Project | Full Stack Web + Mobile Application

Phase 1: Web Application | PHP · MySQL · HTML · CSS · JavaScript

- ▶ Built a full-stack e-commerce platform connecting farmers directly with customers
- ▶ Implemented user registration/login, product listing, cart, wishlist, checkout, and order tracking
- ▶ Designed responsive UI with animations for improved user experience
- ▶ Applied secure authentication with password hashing and session management
- ▶ Developed backend logic for cart operations, order processing, and inventory management

Phase 2: Mobile Application | MERN Stack · React Native · TypeScript · JWT

- ▶ Upgraded the platform to a cross-platform mobile app using MERN stack with TypeScript
- ▶ Implemented secure JWT authentication and OTP verification for enhanced security
- ▶ Developed RESTful APIs for users, products, cart, orders, Wishlist, and dashboard
- ▶ Deployed backend on Render cloud platform for scalable, production-ready hosting

- Achieved improved scalability, performance, and modernized UI over the web version

RESEARCH EXPERIENCE

- KisanX – Direct to Consumer Platform for Farmers** *University of Mumbai*
Avishkar Inter-Collegiate Research Convention • Agriculture & Animal Husbandry (UG Level)
- ÷ Researched and proposed a technology-driven solution to supply chain inefficiencies in Indian agriculture
 - ÷ Selected for inter-collegiate competition out of multiple institutional entries
 - ÷ Demonstrated working prototype and presented findings to academic evaluators

VIRTUAL EXPERIENCE

- Deloitte Technology Job Simulation** *March 2026*
Forage
- ÷ Completed real-world software development tasks simulating industry-level workflows
 - ÷ Practised coding, debugging, and systematic problem-solving techniques
- Deloitte Cybersecurity Job Simulation** *June 2025*
Forage
- ÷ Conducted basic threat analysis and security assessments on simulated environments
 - ÷ Studied cybersecurity concepts, risk identification, and mitigation strategies
